1 Corinthians 13:13

It is important that our children **BELIEVE** in themselves and the possibilities available to them, to **LEARN** by embracing challenge, questioning the world around them, reflecting and not being afraid to take risks so that they **FLOURISH** as unique individuals and the role models of the future.

Our vision is embedded within our chosen Bible verse which comes from 1 Corinthians 13v13.

We have chosen 1 Corinthians 13v3 as Faith, Hope and Love are essential to Christian belief. For Christians, faith is a complete trust and confidence in God. Christians have hope and have a confident expectation for God's purposes to be fulfilled. Through Corinthians, Paul teaches that love is the most important gift we have been given, as God's love for the world is unconditional, generous, unending and unending.

Although we are a church school, the values we take from 1 Corinthians 13 are also applicable to those who are from a different faith or belong to no faith group at all. Faith allows us to have complete trust and confidence in our schools; the people within them and the things we do. We want our children to have hope for their future, to nurture the feelings and desire for something positive to happen. We want our children to understand that we are all unique individuals which make up a school family and community which through love, allows us to care for one another, celebrate diversity, be patient and kind and treats others how we would like to be treated.

We want all the children in our school to experience our core values of **FAITH, HOPE and LOVE** so that they can Believe, Learn and Flourish.

1. Aims and Principles

The main aims of this policy statement are to ensure that staff are fully engaged in being vigilant about radicalisation; that they overcome professional disbelief that such issues will not happen here and ensure that we work alongside other professional bodies and agencies to ensure that our pupils are safe from harm.

The principle objectives are that:

- All governors, teachers, teaching assistants and non-teaching staff will have an understanding of what radicalisation and extremism are and why we need to be vigilant in school.
- All governors, teachers, teaching assistants and non-teaching staff will know what the school policy is on anti-radicalisation and extremism and will follow the policy when issues arise.
- All parents and pupils will know that the school has policies in place to keep pupils safe from harm and that the school regularly reviews its systems to ensure they are appropriate and effective.

2. Definitions and Indicators

Radicalisation is defined as the act or process of making a person more radical or favouring of extreme or fundamental changes in political, economic or social conditions, institutions or habits of the mind.

Extremism is defined as the holding of extreme political or religious views.

3. Procedures for Referrals

Although serious incidents involving radicalisation have not occurred within the Federation to date, it is important for us to be constantly vigilant and remain fully informed about the issues which affect the region in which we teach. Staff are reminded to suspend any professional

4. The Role of the Curriculum

Our curriculums promote respect, tolerance and diversity. Children are encouraged to share their views and recognise that they are entitled to have their own different beliefs which should not be used to influence others.

Our PSHE (Personal, Social and Health Education), Citizenship and SMSC (Spiritual, Moral, Social and Cultural) provision is embedded across the curriculum and underpins the ethos of the school.

It is recognised that children with low aspirations are more vulnerable to radicalisation and therefore we strive to equip our pupils with confidence, self-belief, respect and tolerance as well as setting high standards and expectations for themselves.

Children are regularly taught about how to stay safe when using the Internet and are encouraged to recognise that people are not always who they say they are online. They are taught to seek adult help if they are upset or concerned about anything they read or see on the Internet.

5. Staff Training

Through annual staff training opportunities in the schools, we will ensure that our staff are fully aware of the threats, risks and vulnerabilities that are linked to radicalisation; are aware of the process of radicalisation and how this might be identified early on.

6. Policy Review

The Anti-Radicalisation policy statement will be reviewed annually as part of the overall Child Protection and Safeguarding policy review.
