

Teeth

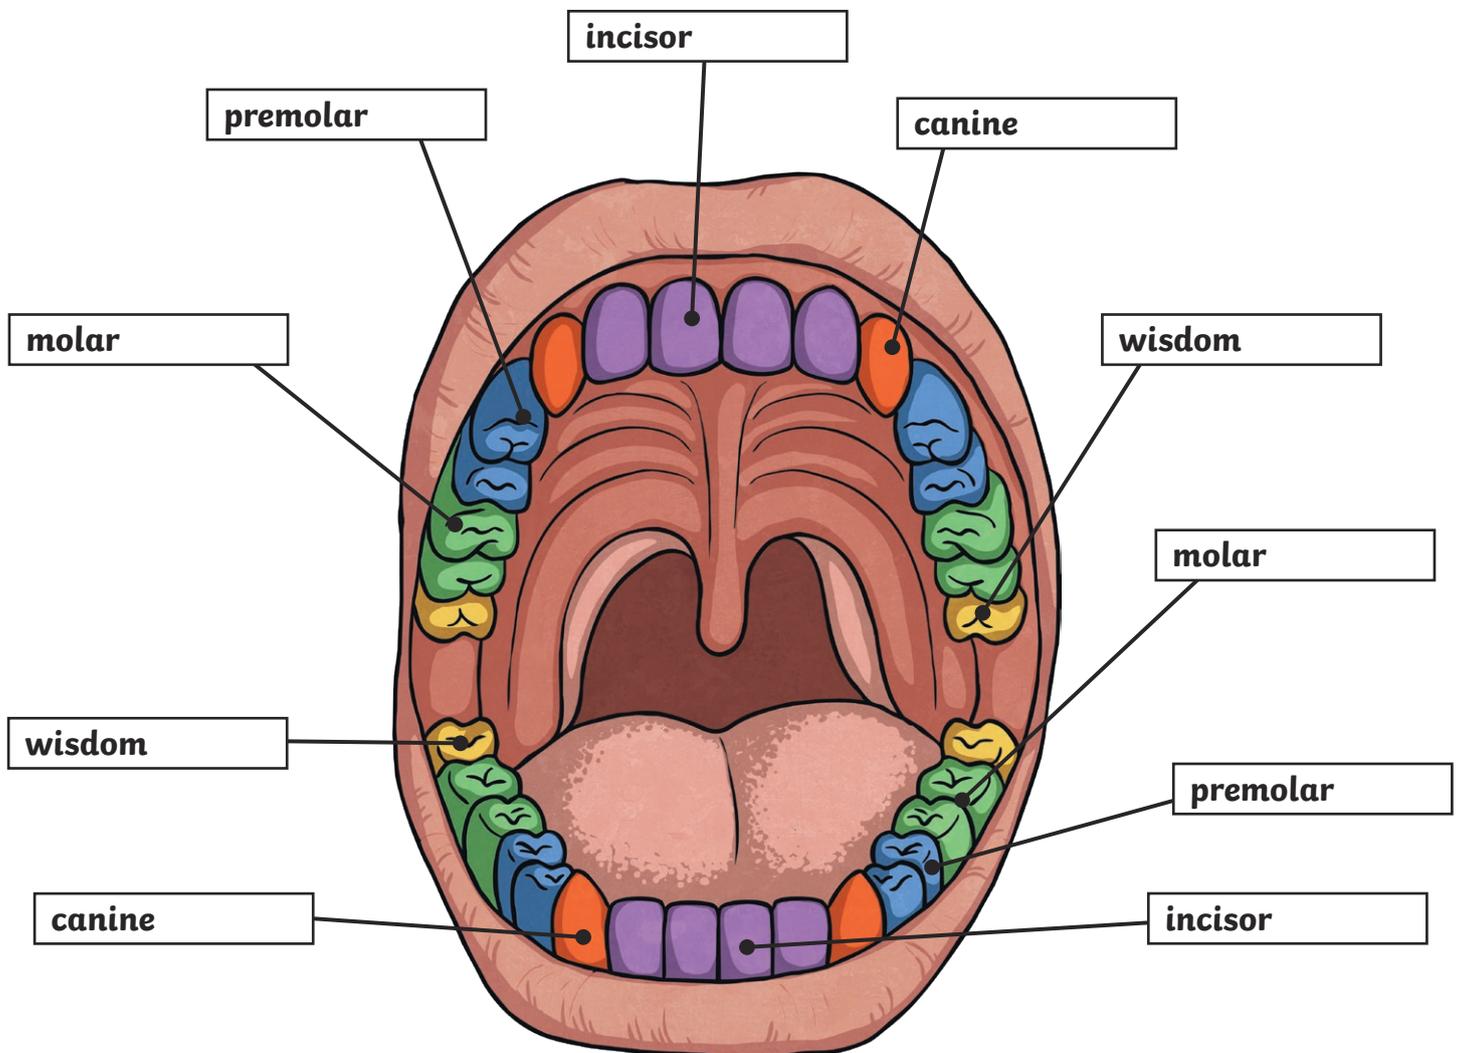

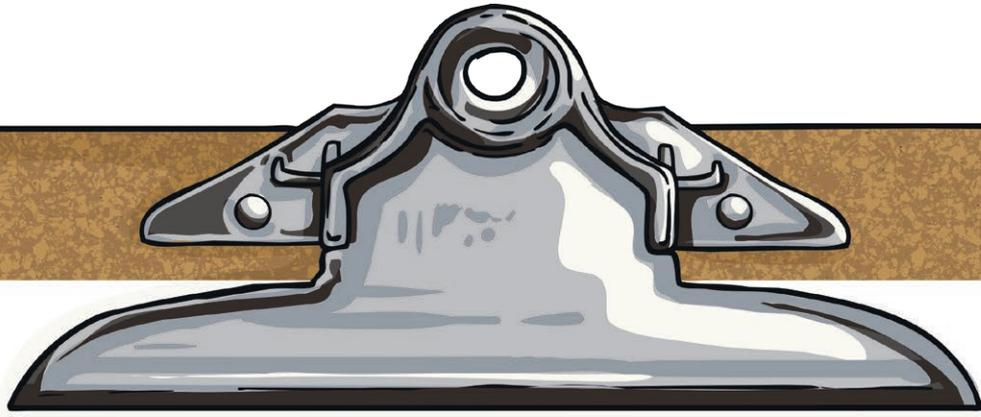

Select the correct label to name each type of tooth on the diagram below.

Human Teeth

Some people have wisdom teeth.

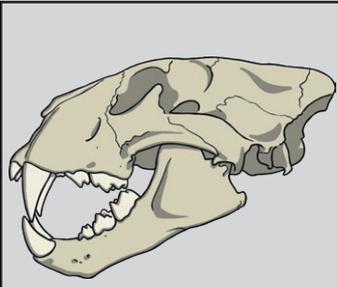

Select the function of each type of tooth.

Type of Tooth	Function
incisor	bites and cuts
canine	tears and rips
molar	grinds
premolar	holds and crushes
wisdom	no function nowadays

This is the skull of a carnivore. How can you tell this just by looking at the teeth?

Example answer: The skull has large canine teeth, needed because carnivores eat meat so they need to tear and rip their food a lot.

Lion - carnivore

List two or more things that you should do to keep your own teeth healthy.

Example answers:
 Brush your teeth twice a day, using a toothpaste that contains fluoride.
 Visit a dentist regularly.
 Don't eat/drink too many sugary foods/drinks.
