

# Coming back to school

There are new signs outside school and black lines on the path to remind everyone to line up 2m apart so that I stay safe and healthy.

I need to wait at the gate until it is my turn to go into school.

I will go into school using the same door as before. At the door I need to say goodbye to the adult that has come with me. They will not be allowed to come into school with me because school isn't big enough for all the adults to stay 2m apart.

Someone will squirt hand sanitiser onto my hands to make sure that they are clean before I touch anything in school. Then I

can hang my coat on my peg. I won't be bringing my indoor shoes to school at the moment.

A teacher will take my lunch box and water bottle and put them somewhere safe.

The classroom looks a little bit different and has lots of space to play. I will have my own bucket of mark making tools and when it's time to come to the carpet, I will have my own special chair or carpet space.

Any reading books that I have finished over the lockdown need to go in the 'Drop off box'.

Instead of the toilets being one for girls and one for boys they are now one for Class 1 and one for Class 2. The toilets that I need to use are the ones on the left which were the girl's toilets.

Hello Class One! We hope you have had a lovely Summer! We are really looking forward to welcoming you all back into school again next week! You must be very excited about playing with your friends again! Our classroom will look a little bit different, but there will be plenty of toys and games and lots of new learning opportunities for you to safely enjoy together. We can't wait to see you soon!
